

Classic Cuts Mobile DJ Service

Proudly Serving Southern California

Dear Activities Director and ASB Students,

My name is Louie Ochoa and I am the owner of Classic Cuts Mobile DJ Service located in Corona California, and we have serviced schools throughout Southern California for the last 20 years. We are looking to provide our professional DJ and Entertainment services for your school this year and would like the opportunity to come out and meet with you to show you the different services we provide and why you should choose us to help make your school events a success. We offer DJ's, Video DJ's, Karaoke, Photo Booths, Casino and a variety of lighting options to help make your event spectacular. Our DJ's have experience working all types of events including homecoming, winter formal and proms as well as basic dances. We can also provide PA Systems, Video Screens, Trussing and more for assemblies and special events. We are very current with our music and all music is clean, edited and radio friendly. We carry a \$1 million dollar liability policy which allows us to perform at any venue that requires your vendors to have insurance. We are happy to include a free lunch time dj(1 hour) when you book your first dance with us, to help get your student body excited for that upcoming dance as well. We hope this serves as a brief introduction to you of my company and what we can provide to help make your school's next event a success. We look forward to hearing from you.

Sincerely,
Louie Ochoa
